one different and higher basis than any other kind
of property. The fallacy of this is not only obvious

Congress is, under the constitution, the anpresse

Congress is, under the constitution, the anpreme country's father. Only the alm-taking which punduthority of the Territories; it is their constitutional coverage, of which the Territorial govarnments are the simple agents and creatures. To constitution would and history will down it. No constitution would and history will down it. places primarily all the rights the citizen possesses in the Tarritories under the guardiauship and protection of Congress. It is confessedly the duty of tection of Congress. It is confessedly the duty of Congress directly or indirectly to guard and protect the relation in his Territorial rights of whatever nature. We contoud simply that Congress is bound to perform this duty with respect to the rights of lave property as much as any other species of prop- of love and veneration that covers all-nust this

The justness of our position is self-evident. It admits of no serious conserversy.

If slave property exists constitutionally in the reverential value, he may be pardoned for striving to ies it is entified to protection or the mans approximate a patriotic country's valuation, and arrely the country's patrioti in cannot value the protection, in common with all other sorts of propsy, If the Territorial governments to which Con- beyond possibility, then, indeed, the endeavors would green delegates the office of protection, prove dera-lict or appressive. This is the deterine of the Bred Scott declaion and of common source. So far from the properties of Scatt decision and of cosmon sense. So far from demanding any peculiar gnaranty or guardianship to behalf of slave property in the Territories, it demands merely that which the constitution, as interpreted by the Saprems Court, and understood by every man of ordinary sense in the Union, greats to all other kinds of property in the Tarritories. It is war, first in peace "—we trust that, forever, the sense are the side of allow reconstitution and the sense of the sense o barely puts the rights of slave property on an quotation can be finished—"and first in the hearts of equality with the rights of other species of property. Not so with squatter-coverelguity: for, according to that most-irrational and detestable heresy, libe rights of slavebolders in the Territories are entitled to no protection at the hands of Congress, or, if entitled to protection, should receive mose, if the Territories are entitled to protection, should receive mose, if the Territories are entitled.

To return: why should not the contributions of ritorial governments, the creatures of Congress, the people be as truly worthy and noble as a government to trample them under foot, and extinguish arament appropriation that m'ght be made? These them. Squatter-sovereignty, as advocated by the it not seem a closer approximation to the national Democratic leaders of Kentucky, places the rights heart? Another, not less timmy, and, if possible, even more absurd, is the idea that the court can protect the rights of slav sholders in the Territories and the state of the court can protect the rights of slav sholders in the Territories and the same in a tracec; in make the present imperious demands on our space, the football is the same in a tracec; in might discrete, but it couldn't act. Still another exceedingly trashy fallacy which the Democratic champions or apologists of squatters avereignty frequently throw into the eyes of the people is the allegation that the South is asking Congress to protect its constitutional rights against the naglect or hostile action of the Territorial governments would concede the right of Congress to destroy its rights. They assume that the right to protect currens with it the right to destroy. The absurding of this assumption is rank and straing, it is perfectly scandalons. As, however, no fullness or vividness of illustration could bring it within the comprehension of those who do not perceive it august at a glance, we shall merely refer its keasewitted patrons to the Dred Scott decision, by which they profess to awear, and which expressly prohibits.

A single refutation more, and we are through for the present with the paltry subterfuges in which the partisans of squatter-sovereignty are went to seek partisans of squatter-rovereignty are wont to seek refage from the popular discernment. Granting, they say, that it is the duty of Congress to protect the right; of slave property in the Territories against the right; of slave property in the Territories against the hostility of the property in the Territories against the hostility of the Territories against the hostility of the Territorial governments, Congress, as at present constituted, would not be likely to do it. Very well; let Congress refuse to do its duty, then, if occasion shall occur, and let the reaponsibility rest where the constitution places it, and where it belongs by every rule of sound statesmanding. and where it belongs by every rule of sound states-manchip. Are we to relinquish the assertion of our constitutional rights for the more reason that Congress attandons or may abandon them? Because Congress is or may be faithless to us shall we be faithless to ourselves? Are we not independent, responsible beings? Are the people of the South to accommodate their views of the constitution and of great practices and the the people of the South to accommodate their views of the constitution and of great questions of public policy affecting closely their rights under the constitution to the whims or exprises or immoralities of Congress? Are the mutations of parties and of creeds at Washington to constitute the measure of our judgments on public affairs? It a Congressional majority to prescribe our spintons and give the law to our politics? Are we to threw away the constitution and adopt Northern centiment or Northern vagary as our political chart? If so, if our public convictions are indeed no more rooted or steadfast than this, if we adapt ourselves thus readily and subminsively to the eccentricities or encroachments of the our mental presently be called on to how our stilly and dishoured heads, or how tamely we shall presently be called on to how our stilly and dishoured heads, or how tamely we shall engacity and an outrage on the self-respect of the argument is a libel on the angueity and an outrage on the self-respect of the sagnoity and an outrage on the so'f-respect of the people of the South. Wa believe it is not that the people are void of slaws property into the Territories; but it asserts, for the sake of the North, that the Territorial governments may without Congressional restraint terrippis or destroy it the instant it gets there. A Long Chase After a Fugitive —In the early part of F-bruary a man rained Gersbun Cohen robbed the firm of Hermann & Co., No. 415 Bruomo street, text door to the Police Headquarters, of \$8,600 worth of diamond jewelry, and the essue day the robbery was perpetrated easiled for Europe in the stamer Kangaroo. Mr Hermann, the senior partner of the firm, started for Liverpool by the next steamer, and on his arrival there made \$\Sigma_{\text{opt}}\$ printed that after \$\text{opt}\$ arrival the easiled with the fac s. Search was made for Cohen, and it was ascertained that after his arrival in Liverpool be had proceeded to Hamburg. A telegraph dispatch was sent to the police at Hamburg, and just as Cohen arrived he was taken into custody, and detained until the arrival of \$H\$. Hermann. All the property was recovered except about \$600 worth, and as it was doubted whether the police of Hamburg bad authority to hold Cohen, he was released, and immediately retraced bis steps to Liverpool, and took passages for home in the steamer Kangaroo, and arrived in this city yesterday. Superintendent Bates had privately informed the captain of the steamer as to the Icentity of Cohen, and told bim to hand him over to the first policem he saw on his arrival in New York. Accordingly, Mr Cohen was handed over yesterday to special officer Min. Oldring, and locked up at the Police Headquarters to await an axamination.—N. Y. Courser. Centous Proceedings in a Tennessee Court.—
The Circuit Court of Lincoln county, Tenn., recently tried the case of the Stats vs McElyea, for abooting, Lawson Turley on the first Morday in May, 1858. "McElyea," says the Lincoln Journal, "was put upon bis trial at the Nuveniber term, 1858—the jary were unable to agree and were discharged—ten being for nequitted act two for couviction. Again he was put upon trial at the March term with a like result, except on the last trial eleven were for acquitted and use for conviction. The jury raceived the charge from Judge Marchbanks on Tuesday, remaining together until Friday evening, reporting to the court from time to time their inability to agree. porting to the court from time to trute their instiity in agree.

'Before the jury were discharged the defendant
stated to the court that he would prefar to go to the
peoitentiary at once rather than remain longer in
jail, and, if permitted, would withdraw his plas of
not guilty, and plead guilty to the indictment,
though in fact not so, and submit to the jury to fix
his term of imprisonment that the case might be
disposed of. The jury were then discharged and
again swere to determine the time for which be
should be confined in the poniteutiary, which they
fixed at two years.'

Having exhausted their strength by noon the same plan was adopted by the leaders, which has been systematically employed at every election for three years past.

Every sensible man knowe that in the First and Fighth wards the great mass of our party consists o suschanics, who are employed elsewhere in the city, a.d do not vote until late in the afternoon. It was, therefore, the purpose of the Damocrata, ascertaining that we were determined to beat them fairly, to poll their whole attempts, raise a disturbance, prevent our votes from being polled, and them to the province of the transaction aron us. The interest was and honer should be an and honer should be in the place. These errors may be of little importance, but Woodsonville is a little jealous of the pollange of the bance, prevent our votes from being polled, and then cast the odinm of the transaction apon us. The torreats of rain which operated so injuriously against us were bad enough to coatend with, without hev-ing this trick in addition. We assert possitively that over 525 members of the Opposition of the First ents of rain we should have carried the First Ward
